EXECUTIVE HEALTH: A CONTEMPORARY HEALTH AND PRODUCTIVITY SOLUTION

Baltimore, MD – ArmadaCare has announced the exclusive availability of a contemporary tool to help companies in the struggle to manage healthcare costs while maintaining a strong benefits package for key employees.

Leveraging well established health and productivity principles, refocused on the unique needs and requirements of a company's key strategic performers, ArmadaCare has developed an innovative program that helps maximize the health and productivity and the level and scope of healthcare coverage for a company's mission critical employees. This fully insured, comprehensive, tax advantaged product can be provided to employees on a selective basis.

In addition to supplemental healthcare coverage, *Executive Health* offers global, clinical navigation support to ensure executives gain expedited, facilitated access to top physicians, information about medical conditions and treatment options and full medical emergency and travel support. Incorporating full coverage for premier domestic and international air evacuation and annual comprehensive executive physicals, *Executive Health* further helps companies protect their investment in important executive talent.

Executive Health is built to comfortably withstand contemporary regulatory scrutiny and offers complete flexibility in the underlying health plan design. Several plan options are available with coverage of up to \$100,000 for medical, dental, prescription and vision expenses, covering often limited coverage costs such as orthodontia and Lasik surgery and further enhancing the perceived value of the *Executive Health* product.

“The combination of clinical navigation services, domestic and international emergency support and supplemental health reimbursement makes this a superior executive compensation option. Executives will not only have access to premier medical care around the world, but also a way to pay for any related out-of-pocket expenses”, explains Keith Sullivan, a benefits industry veteran and ArmadaCare's Co-Founder. “The company gains a great tool for attracting and retaining key talent, all while protecting a critical company asset from the risks associated with health conditions and global medical emergencies. It truly creates a win-win for the company and its executives.”

ArmadaCare is the Managing General Underwriter for Executive Health, insured and underwritten by A+ rated Transamerica Financial Life Insurance Company and Monumental Life Insurance Company. Executive Health is a fully insured program available in 44 states, including the state of New York. The program provides Clinical Concierge and travel medical support as well as a supplemental health reimbursement plan that offers an unprecedented level of reimbursement speed and convenience.
